Re: Maps of Street Numbering, Cape Coral
Our Job No. 3080

Dear Mrs. Jones:

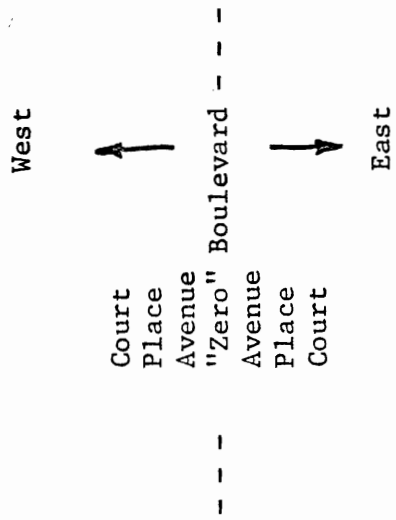

In response to your telephone call regarding the street numbering and house numbering at Cape Coral, we are enclosing two (2) prints, one for the east part and one for the west part of Cape Coral.

The street number plan is divided into quadrants by a "zero" east-west "Street" and a "zero" north-south "Avenue." Van Loon Parkway and Embers Parkway are the east-west "Streets" which divide the south quadrants from the north quadrants. Santa Barbara Boulevard and Juanita Boulevard are the north-south "Avenues" which separate east from west quadrants.

"Streets" are number-named from the "zero" Street in ascending number order as follows:

"Avenues" are number-named from the "zero" Avenue in ascending number order as follows:

Sometimes one of the above names are omitted, due to irregular patterns.

Lots are numbered going away from zero Streets and Avenues, in general starting new block numbers at "Streets" going north and south, and at "Avenues" going east and west - see map.

Arterial streets and avenues are named, and usually have a number, in parenthesis, for house number change purposes.

North-south arterial avenues are named Boulevards. East-west arterial streets are named Parkways.

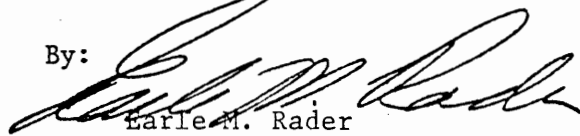

Houses are numbered with odd numbers on the north and east sides of streets or avenues, and even number on the south and west sides of streets or avenues.

If you need additional information, please call us.

Very truly yours,

RADER AND ASSOCIATES
